

Om Ingle

Malkapur, Maharashtra | ingleom82@gmail.com | +91 9359705938 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

A proactive Information Technology student with a track record of academic excellence and professional internship experience in full-stack web development. Highly skilled in Core Java, JDBC, and SQL database management. Seeking a Java/QA internship to apply a strong foundation in object-oriented programming, rigorous debugging, and software testing principles to ensure high-quality, scalable, and bug-free enterprise applications.

TECHNICAL SKILLS

Languages: Java (Core, Advanced - Basics, JDBC, DSA), C, C++, SQL, JavaScript

Web Technologies: REST API Integration, HTML5, CSS3, DOM Manipulation

Database: Oracle, MySQL, Relational Database Management Systems (RDBMS)

Testing & Quality: JUnit (Basics), Manual Debugging, Exception Handling, Code Testing

Developer Tools & Emerging Tech: Git, GitHub, Eclipse, IntelliJ IDEA, Generative AI (AI-Assisted Development, Prompt Engineering)

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern | AgroZone Technology Pvt. Ltd.

Aug 2025 – Jan 2026

Shegaon, Maharashtra

- Designed, developed, and maintained dynamic web applications, ensuring optimal performance and responsive layouts.
- Authored, tested, and systematically debugged code to improve core system functionality and resolve user-facing performance issues.
- Collaborated closely with the development team to implement new features while strictly adhering to internal coding standards and best practices.
- Participated actively in code reviews, incorporating feedback to ensure clean, maintainable, and well-documented deliverables.

PROJECTS

Core Java Banking Operations Simulator

Jan 2026

Core Java, Collections Framework, OOP, Exception Handling

Robust banking simulation application managing customer accounts, transactions, and secure balance inquiries.

- Engineered core backend logic using Java to securely process user transactions and prevent invalid operations.
- Leveraged the Java Collections Framework (HashMaps, ArrayLists) extensively for efficient, in-memory data storage and rapid retrieval of customer records.
- Implemented strict Object-Oriented Programming (OOP) principles and comprehensive exception handling, validating core logic through rigorous manual testing and edge-case evaluation.

Movie Information Management System

Dec 2025

Java, JDBC, SQL, MySQL

Backend management system to securely add, update, retrieve, and delete (CRUD) movie records.

- Integrated Java with a relational database using JDBC (Java Database Connectivity), establishing secure connections and executing prepared statements.
- Designed and executed complex SQL queries to filter and sort database entries, ensuring efficient data manipulation and rapid retrieval.

Java Enterprise Utility Applications | [GitHub](#)

Jan 2026

Core Java, OOP, Collections Framework

A suite of backend console applications designed to automate administrative and financial tasks.

- Student Management System:** Engineered a robust tracking system utilizing Java Collections to perform efficient CRUD (Create, Read, Update, Delete) operations on academic records.
- Employee Tax Calculator:** Developed a dynamic financial utility implementing complex conditional logic and varied tax brackets to accurately compute payroll deductions and net salaries.
- Applied strict Object-Oriented Programming principles across both applications to ensure code reusability, clean architecture, and seamless data processing.

CERTIFICATIONS & ACHIEVEMENTS

- Silver Elite Certificate in Programming in Java** - Issued by NPTEL (National Programme on Technology Enhanced Learning).
- Elite Certificate in Data Structures and Algorithms with Java** - Issued by NPTEL.

EDUCATION

Bachelor of Engineering (B.E.), Information Technology

2023 – Expected May 2027

Mauli College of Engineering and Technology, Shegaon | CGPA: 9.45/10.0
